FLOORLEDS

Floorleds provide ambient, orientation, marker and safety lighting in carpet, hardwood, laminate, (natural) stone and quartz flooring applications.

- Warm White LED
- Cool White LED

MULTI ROUND

Eyeleds® Multi can be used as interior design accents, guide or night-lights. Additionally, this system can be installed into existing flooring by accessing the floor below to link the connectors together through a basement or crawl space.

- Warm White LED
- Cool White LED
- Blue LED
- Amber LED

MULTI SQUARE

COLOREYE RGB

RGB

ColorEYE RGB must be operated by a special driver. 2 types of drivers are possible.

1. ColorEye RGB Sequencer box and a single, wall mounted on/off switch.
   The color cycle mode, runs automatically and continuously when the system is switched on. Each color within the spectrum can be selected as a static color, simply by swiftly switching the system off and on.

2. The ColorEye RGB BLE controller box is a bluetooth driver. With the BLE-ND app from the App store a Bluetooth Low Energy connection can be made and the desired color can be selected with the app. All RGB colors and dimming is possible.

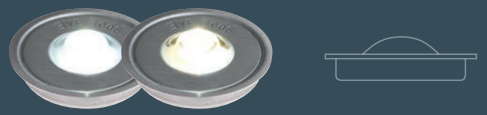
INDOORLIGHTING

POWEREYE 360



POWEREYE 180

Due to its low-profile housing, the PowerEYE can be installed just about anywhere.
The PowerEYE 360 is ideally suited for use in ceilings, under kitchen cabinets, display cases, book cases, recessed cubicles and more.

The PowerEYE 180 creates a wallwash effect when installed into vertical surfaces.
It can be installed virtually anywhere indoor such as in baseboards, stair stringers and walkways.
